WHY USE TEEM?

Quality Service		We spend time getting to know our clients, understanding their requirements, we don't waste anyone's time sending candidates who don't match the required skill set or who exceed pay scales. We would rather send just one or two candidates who fully meet the criteria than have a dozen who are mediocre.
Ease of Process		We offer a superior user experience at every stage of the recruitment journey. From how a candidate registers for work to how a client places a job vacancy we have ensured the process is as simple, slick, and as easy to understand as possible.
Expertise		Combined, we have over 34 years' recruitment industry knowledge. We keep abreast of all current legislation and ensure our knowledge is passed on to our clients.
It's Personal!		We are a small company, but we feel that's an advantage. We can take time to get to personally know our candidates and clients. We want our clients and candidates to always feel we have given them our full attention and that they are very much valued.
Value for Money		We are so confident in our abilities we only charge when we deliver. All enquires are free - we do not charge for searching for candidates, sending CVs over or arranging interviews. An agreed fee is only charged if the candidate accepts the job offer and starts.
